

Historical 2

Historical routes are a statewide layer from the University Redlands, modified by the Bakersfield BLM Office with input from Tejon Ranch. Historic mining districts are digitized by the BLM from the California Division of Mines and Geology - Kern County Report (of mines) published in 1963.

Mine Areas

- | | | | |
|--|----------------|--|-------------------------|
| | Antimony | | Gold, Tungsten |
| | Gold | | Tin |
| | Gold, Antimony | | Tungsten |
| | Gold, Silver | | Butterfield Stage Stops |
| | Rail Survey | | Stage Routes |
| | | | Historic Roads |
